Subject: S.U.R.&R. Introduces New AC300 Deluxe A/C Line Repair & Replacement Kit

A/C Line Repair and Replacement Made Simple and Fast

A/C lines can be repaired or replaced in minutes with this convenient, all-in-one kit which includes 126 pieces and 30' of hose.

Designed for use with both rubber and aluminum, the AC300 can be used to make complete new lines as well as repair common problems including pinholes and cracks. Featuring specialized, low permeability rubber hose that is pressure rated up to 600 PSI, the AC300 includes #6, #8, and #10-sized fittings, hoses, clamp holders, and clamps.

Additional features include:

- Rubber to aluminum line connection adapter
- All connections made by hand (no special tool required)
- Usable for hundreds of front and rear line applications
- Low permeability rubber hose which meets SAE J2064 specifications
- Simple line routing
- Portable carrying case and individual trays with handles

Says Joseph Wathey, S.U.R.&R. President, "The AC300 is unique because it allows mechanics to repair or replace both rubber and aluminum lines. Given the wide range of applications, the kit can easily pay for itself in as little as one job through reduced part costs as well in decreased service time."
