

Subject: News from S.U.R.& R.: New Brake Bleeder Removal Tool Kit

PRESS RELEASE

RELEASE DATE: IMMEDIATELY

S.U.R.& R. Introduces New BB007 Brake Bleeder Removal Tool Kit

The S.U.R.&R. BB007 Brake Bleeder Removal Tool Kit features specially sized pins that are inserted into the bleeder screw to prevent the walls from collapsing. After applying a shock with the air chisel, the bleeder case hardens and screw threads loosen making screw removal simple and safe. Additional features include:

- Decrease risk of damaging screw and caliper
- Safe for use with both aluminum and cast iron calipers
- No drilling, tapping, or heating required
- Portable carrying case includes tool, adapters, pins, and replacement screws

For more information, contact S.U.R.&R. at 330.745.330 or visit www.fuelsender.com.
