Subject: S.U.R.&R BR-EZ316 Brake Line Replacement Kit Named 2009 #1 Most Wanted Product by Professional Tool & Equipment News Magazine

BR-EZ316 Brake Kit – 2009 #1 Most Wanted Product

Professional Tool & Equipment News Magazine recently named the S.U.R.&R. BR-EZ316 Brake Line Replacement Kit as winner of its 2009 #1 Most Wanted Product award.

The award recognizes the product which received the largest number of information requests from the publication's readers which include automotive repair industry professionals such as service technicians, repair shop owners, auto parts stores, mobile tool dealers, warehouse distributors, educational facilities, and mass merchants.

Designed to make brake line replacements simple, the all-in-one BR-EZ316 kit features both metric and standard fittings along with high-performance alloy tubing. The flexible tubing will not rust or corrode, is backed by a lifetime warranty, flares smoothly, and can be bent by hand which makes routing easy.

Said Joe Wathey, S.U.R.&R. President, "We are honored to receive this award from Professional Tool & Equipment News Magazine and are extremely appreciative of the interest expressed by the automotive repair industry professionals that we serve."

The Top 25 products of the Top 100 Most Wanted will be featured within the November 2009 issue of PTEN; the entire Top 100 products list is at PTEN's Online Buyers Guide (directory.pten.com) and an announcement was sent to subscribers of Mobile Dealers News, an eNewsletter distributed to automotive aftermarket distribution professionals.

For more information, contact S.U.R.&R. at 1.800.390.3996 or visit www.fuelsender.com.
