

Customized tool storage

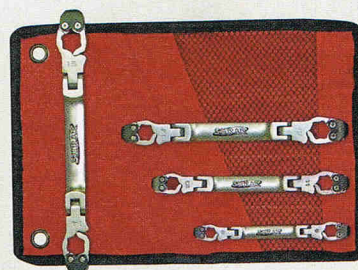

Make toolboxes stand out with Snap-on's custom skins. The Snap-on skins program offers a variety of design options to make a personalized statement, from tattoo- and graffiti-style art to tuner car and racing designs.

High-performance LEDs

Goodson's Maxxeon WorkStar 220 Compact Inspection Light includes a special high performance LED. It is 6" in length, weighs 1 oz. and clips easily into any pocket. All threaded joints have rubber O-ring seals for water resistance. The push-button switch is rated at 100,000 cycles and is sealed to keep out dirt and grit. Runs on 3-AAAA alkaline batteries, included.

Tighten or loosen fittings

Featuring a patented ratcheting system, the LW700 Metric Wrench Set from S.U.R. & R. can be used to tighten or loosen numerous fittings including those used for brake, A/C, fuel and power steering applications. Using a unique open/close head design, installers are able to securely grip around the entire nut and avoid slipping. The wrenches also feature a 90-degree flex head for working in tight spaces. The kit includes four wrenches covering sizes from 8mm to 15mm. Each wrench features two metric sizes.

Auto-voltage detection

The automatic 1.5-amp SEM-1562A Battery Charger from Schumacher Electric Corp. maintains both 6V and 12V batteries with auto-voltage detection and keeps batteries fully charged using microprocessor-controlled technology. This innovated technology uses multi-stage charging, automatically switching from full charge to float-mode monitoring. LEDs indicate three modes including "Charged," "Charging" or "Trouble." A quick-disconnect harness snaps either connector into place in seconds.

Complete telematics system

Delphi has a long, successful history with advanced automotive technologies - and specifically telematics - including collecting data from vehicles, transmitting information to vehicles and creating a flow of information. The aftermarket telematics business model is now a reality with the Delphi Telematics System. Delphi made an agreement with Auto Club Enterprises, the nation's largest AAA affiliate, to develop and market this plug-and-play device to its members. Features include convenient mileage verification, remote door unlock, vehicle preventative maintenance and GPS vehicle location for faster emergency roadside service.
