Whether you want to replace or repair, professional mechanics know the KP1200 is the RIGHT choice.

Following are several of the hundreds of examples that make the KP1200 the preferred option vs. OEM Fuel Lines

SAVE TIME

Save up to 75% off installation time —

Convenient push button thumb release makes connections quick and easy. Nylon lines are flexible. No more difficulty handling rigid steel lines.

Nylon to Nylon Repair – using Nylon to Nylon Push Union (K057) and 90° Push Quick Connect (KP135).

Average connection time = 5 minutes.

Nylon to Steel Repair – Using Nylon to Steel Compression Fitting (K050) and Straight Push Quick Connect (KP040).

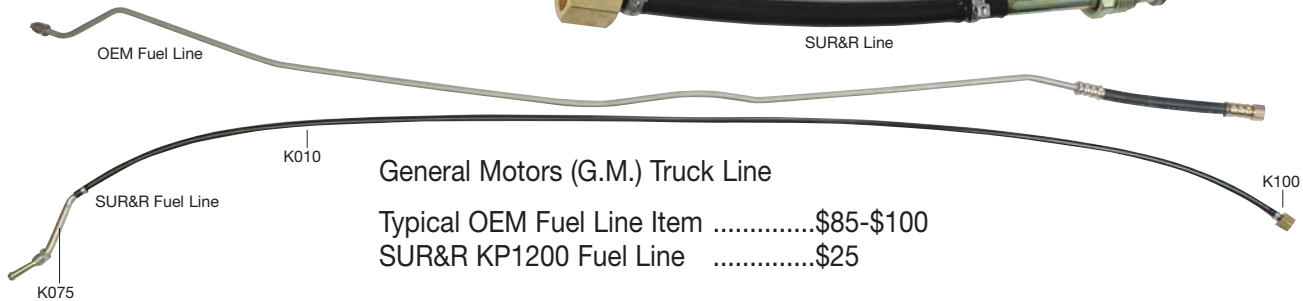

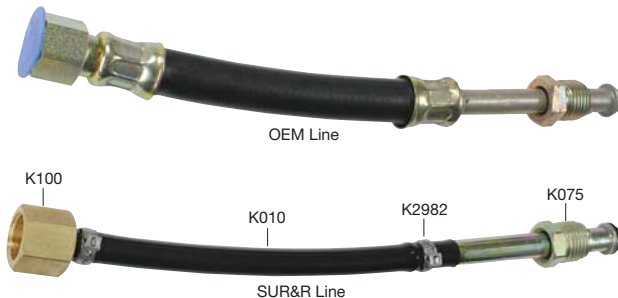

Average connection time = 5 minutes

SAVE MONEY

Save Up to 70% vs. OEM Dealer Only Fuel Line Items

High Compression (H.C.) Line Replacement

Typical OEM Fuel Line Item\$75
SUR&R KP1200 Fuel Line\$20

General Motors (G.M.) Truck Line

Typical OEM Fuel Line Item\$85-\$100
SUR&R KP1200 Fuel Line\$25

EASY INSTALLATION

Typical installations can be done in less than 5 minutes in 3 easy steps.

- 1st - Cut the tubing to length
- 2nd - Using your hands (no tools required), attach the fitting to the nylon tube by pushing together

3rd - Crimp clamp

You're done. It's that simple!

MORE KP1200 ADVANTAGES

Designed for high pressure applications - All nylon lines hold up to 200 PSI

Can be used near heat source. Applications involving heat source within 10 inches require optional Heat Shield Tape (14000 Series) or Sleeve (14005 Series)

Warranty: SUR&R does not represent or warranty any product not used for its intended purpose or is installed improperly.
