New Ratcheting Flex Head Line Wrenches Now Available "Get A Perfect Grip Without The Slip"

**GROUND BREAKING
NEW TECHNOLOGY**

S.U.R.&R. is pleased to announce our expanded line of "Ratcheting Flex Head Line Wrench" sets. These are the most technologically advanced wrenches available on the market today.

Our "Ratcheting Flex Head Line Wrenches" are ideal for use on brake, A/C, fuel and power steering lines as well as suspension components like tie rod ends.

Key Features include:

- The wrench grip on the nut tightens as more pressure is applied
- Durable construction: made from hardened, tempered Chrome Vanadium steel
- Backed by a Lifetime Warranty
- 3 sets available provide broad coverage for both Metric & SAE applications
- Individual wrenches are available for order:

✓ **Metric Wrenches:** LW0809, LW1011, LW1213, LW1415, LW1617, LW1819

✓ **SAE Wrenches:** LW51638, LW71612, LW91658, LW111634
